

# Floor stand, type SBF

## Characteristics

The floor stands of type SBF were specially developed for the positioning of feeding devices. They have a nearly fixed height which is

individually adapted to customer requirements and can be adjusted via the feet by about 50 mm. Characteristic properties for the

floor stand of type SBF is its space-saving geometry with the three radially arranged positioning feet.

## Dimensions

| Designation   | Dimensions [mm] |                    |     | Article no. |
|---------------|-----------------|--------------------|-----|-------------|
|               | A               | H                  | ØB  |             |
| <b>SBF500</b> | 250             | 170 - approx. 2000 | 400 | 1-000629    |
| <b>SBF600</b> | 300             | 170 - approx. 2000 | 500 | 1-000630    |
| <b>SBF700</b> | 350             | 170 - approx. 2000 | 600 | 1-001070    |
